

IT'S TIME FOR
Stressless[®]

50
YEARS OF
EXCLUSIVE
COMFORT

Stressless

50 years of... Exclusive Comfort

On the west coast of Norway, in the small community of Sykkylven, lies the company who has created the world's most comfortable chair for generations – and still does.

In 1971, a revolutionary recliner was introduced and set a new standard in comfort and functionality. Stressless® was designed to offer maximum well-being and precious me-time in a busy, modern world. And with equal parts inspiration from nature and the region's tradition of skilled craftsmen, Stressless® got off to a flying start. 50 years later, Norway's largest furniture exporter is still located by the fjord and still offers you exclusive comfort, assembled by hand.

50 years of...

Craftsmanship

This is the story of how experiences and craftsmanship through generations go hand in hand with advanced technology

Stressless® builds on decades of knowledge and insight to offer incomparable seating comfort for future generations. Years of studies in human anatomy and technological innovation are converted into beautiful designs by skilled craftsmen, while advanced production robots handle the repetitive, tough tasks with an incredible degree of precision.

Comfort that lasts

At Stressless® we make quality products that will last you a lifetime. Our raw materials are selected with the utmost care and consideration to give the furniture endurance. Choosing a high-quality product extends its lifespan and lowers the environmental impact making design just as important. With our focus on timeless pieces, we create Stressless® icons to last.

Why Stressless®?

Take a seat and relax. When you do this in Stressless® furniture we hope you'll notice the difference between our furniture and everything else. The difference lies in our patented comfort technologies. BalanceAdapt™. Power™. Plus™-system. Glide™-system.

Our vision is to create recliners, sofas, office chairs and dining chairs that provide perfect support while replicating the body's every movement. Add in the ability to select between three recliner sizes or tailor a sofa with low back, high back and headrest options and the result is a level of fit and comfort one can only feel when spending time in Stressless® furniture.

Far west in our elongated country, you find a beautiful place surrounded by deep fjords and majestic mountains. These are the surroundings where we find the inspiration for our unique designs. In this village, the craftsmanship and passion for furniture has been passed through generations – all the way back to 1934.

10-year internal mechanism & construction guarantee

We guarantee the internal mechanism and construction of our recliners and sofas for a period of 10 years from the date of initial delivery to the consumer. The 10-year guarantee covers the mechanical functions in the recliner/sofa. The 10-year guarantee covers the internal framework of steel and/or wood, including the metal springs. The 10-year guarantee does not cover damage to leather, woodwork or any faults or damage caused by the use of the product other than in accordance with the manufacturer's recommendations, as well as any faults or damage arising from any repairs made by any persons not authorized by the manufacturer or use of non-original parts. Some natural settlement and indentation in the padding and foam is considered normal and is part of a break-in process.

We guarantee all electrical parts and motor on the Power™ system for a period of 5 years from the date of initial delivery to the consumer. The battery is not included in the 5-year guarantee.

2 YEAR GUARANTEE on Power Batteries.

It's time to take our Comfort Test

The ultimate sensation of comfort is individual and personal to everyone. Because we all have different needs, we encourage you to take our Stressless® Comfort Test to find the size and model that fits you best. We guarantee this will be time well spent. After all, a Stressless® recliner is an investment you'll enjoy for many years to come.

- Does the recliner feel stable and safe?
- Are the height and width of the chair right for you?
- Do you find it easy to adjust the chair to your preferences?
- Does the chair provide good lumbar support in all positions?
- Is your head supported comfortably as you recline to read or watch TV?
- Can you adjust the headrest so that it lays flat when you recline?
- Do you have the feeling that the seat back reclines sufficiently?
- Do you have a comfortable and relaxing angle on the leg support?
- Can you position the leg rest according to your preferences?
- Are you aware of how your entire body relaxes?

Stressless® Scott
Paloma New Cognac
Sirius base brushed metal

It's time to lean back

Graceful and slender, Stressless® Scott will complement any interior setting. With a soft silhouette and double stitching detail at the seams, this stylish recliner has a sophisticated design. The integrated pillow in the headrest makes it easy to adjust head and neck support at your preference whilst the ergonomically shaped seat and back frame ensures total luxury whilst sitting.

Add personal touches with your choice of base, quality upholstery and colours. Experience the feeling of freedom with our 360° swiveling bases. The Sirius aluminum cross is available in brushed or matte black finish. The laminated round Disc base comes in Black, Natural or Whitewash oak Veneer and Walnut Veneer.

Power™

Stressless® Scott and Stressless® Sam come with three motors, all individually operated by a slim and stylish remote control that attaches to the chair armrest by magnet. You can easily adjust the support to your back, legs and head, and the movements for the head support is synchronized with the movements of the backrest. Simply hit the HOME button to move back to an upright position. Take comfort to the next level with optional extras including heating and massage. Chairs without heating and massage functions are available with battery if you prefer to avoid cords.

Extra comfort.

Add heating only, or heating combined with a light massage for intense relaxation.

It's time to enjoy

With a generous open design, round soft shape and pared back cushions, Stressless® Sam comprises all the hallmarks of iconic mid-century modern style. An elegant and contemporary outline paired with detailed French stitching at the seams completes the look. A curved back and seat provide a comfortable and hugging feeling whilst sitting and the accentuated shape of the adjustable headrest cushion offers perfect support for the head and neck.

Stressless® Sam Wood is a version of the same chair with wooden panels on the armrests for a totally natural Scandinavian look and feel. Choose between four different wood colours to complement your interior style. Personalize Stressless® Sam and Stressless® Sam Wood with your choice of swivel base and high-quality leather or fabric, both available in a wide range of traditional and modern colours.

Power™ is easily operated by the remote control. The motorized functions offer truly outstanding comfort in all positions, small adjustments can make a big difference. Take comfort to the next level with optional extras including built-in heating and massage functions.

Instant comfort

Stressless® Mike and Max motorized recliners have a soft rocking motion that gives instant relaxation from the moment you sit down.

With the touch of one master control button, you can adjust back, leg, lumbar and head support in one synchronized movement. Or you can make independent adjustments for that just-right spot that feels best to you. Lumbar support is automatically adjusted when you change the position of the back rest, so your lower back is always supported ergonomically. In the true spirit of Stressless® innovations, Stressless® Mike and Max come complete with the patented Stressless® Plus™-system and equipped with unique Comfort Zones™ in the seat and back.

Stressless® Mike and Max feature a stabilizing and elegantly crafted disc-shaped moon base, with 360 degree swivel, available in brushed steel or wood in 8 different stain colours.

Take Control

The Stressless® Mike and Max have four built-in motors operating the headrest, lumbar + back and footrest to ensure a perfect individual fit. The functions are operated with the integrated control panel in the armrest.

Stressless® introduce a new upgraded Stressless® Plus™-system. By pushing only one button, you can find the predefined “TV” and “sleep” position. Like the original Stressless® Plus™-system the headrest moves forward, and the lumbar support retracts when reclining. In the upgraded Plus™-System the footrest is also included in the synchronized movement.

With a light pressure under the armrest, **Power™** adjusts both the footrest and the back angle. This combination provides superb support and comfort.

It's time to put your feet up

Stressless® with Power™

Millions of people across the globe benefit everyday from our incredibly comfortable chairs. And now, we are delighted to offer our iconic recliners with new motorized patented systems. In perfect harmony with modern Scandinavian design, Stressless® with Power™ recliners offer enhanced motorized functionality whilst staying true to classic Stressless® design.

Stressless® with Power is a great alternative to a recliner and separate footstool, and is available in two systems:

Power Leg™ – the integrated footrest has a slim design, elegantly concealed beneath the seat. Provide support for your legs and extend the footrest outwards by lightly pushing a button under the armrest. The footrest is designed to follow the natural angle of your feet and can be adapted to different leg lengths, extending longer than most other footrests on the market. It is easy to get off the chair, even when the footrest is extended. The back of the recliner is operated automatically when you lean backwards.

Power™ – this system comes with all the benefits of Power Leg™ plus the motorized reclining function of the backrest for ultimate ease and comfort. Use the set of buttons found under the armrest next to the footrest buttons.

Battery option is also available with a magnetic charger attachment for easy access. Total comfort at the touch of a button.

Recliner with Stool - the classic choice

Stressless® free-standing footstools will always be classic pieces of furniture and the perfect partner for our chairs and sofas. Since all Stressless® furniture is designed, engineered and handcrafted to exemplary mechanical precision, why would we make a stool that is any less advanced?

When you lean back in a recliner chair, your legs move forwards and down. Most traditional, flat footstools do not support this sitting position. Free-standing Stressless® footstools have a built-in sliding function that automatically follows the movement of your legs, giving you the freedom to move whilst staying completely supported and making the world's most comfortable recliner even better. What's more, in a locked position our footstools can be used as an extra seat.

PLUS™ SYSTEM. Whether you are sitting or lying down, our unique Plus™ system provides optimal comfort and support for the lower back and head in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

Size matters

Style and comfort are individual. It's only natural, since we all come in different shapes and sizes.

The large choice of bases with different designs and functionality allows you to personalize your recliner. Most of the recliners also come in different sizes.

We have included a full overview of the many possibilities on the last pages of this catalogue.

FIND YOUR BALANCE with BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

Stressless® Magic (L) Signature with footstool
Paloma Shadow Green/Black/Matte Black

Stressless® Mayfair (M) Signature with footstool

50 years of perfect balance

Stressless® Signature, Cross, Star and Original bases feature the unique BalanceAdapt™-functionality. This gives a feeling of complete comfort that makes them stand out from other recliners. The innovative mechanism provides a gentle rocking motion, creating a feeling of weightlessness, and the ability to lie almost horizontally. These base options have a stylish and Scandinavian aesthetic that add a contemporary edge to the leather and fabric recliner range.

FIND YOUR BALANCE with BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

Celebrating our iconic roots

Half a century of Stressless® comfort! What could be more fitting than a reintroduction of the distinctive design element from that very first Stressless® recliner. The unique and beautiful Original base is an ode to our beginnings, and so are the details of the elegantly curved steel structure on the chairs that are available with this base. The Original base gives Stressless® Metro, London, Paris and Tokyo an iconic retro look.

It's time to take a break

Stressless® Star and Original Base models are a nod to mid century design with three different back options – high back, low back and an adjustable headrest.

The high back models offer all the well-known Stressless® comfort features for personal relaxation, while the low back versions invite you to gather with friends and family. Height adjustable designs allows you to increase the length of the back by up to 10cm, offering true personal comfort contained within iconic good looks.

Home office comforts

Whether it's a dedicated room, a small study space or a nook in the dining room, it's important to be comfortable when working at home. If you spend a lot of time seated working at a screen, then a well-designed chair that actively encourages a movement is a necessity.

Our collection of Home Office recliners marries supreme comfort and style, blending effortlessly with the rest of your interior. Soft cushioning and sublime lower-back support mean you can sit for longer periods of time in complete comfort.

All our recliners can be used as office chairs. The models with the elegant steel structure come in a polished aluminum base, available with three back heights. The models with wood details come in a black base and you have the same choice of wood colours as on the recliners.

100% Clean energy

We are from a beautiful place surrounded by majestic mountains, deep fjords and waterfalls all reminding us to protect this inspiring environment around us. 100% of the power supplied to our Stressless® factories in Norway come from hydropower; a renewable energy source generated by an endless water cycle. When you purchase Stressless® furniture, you are not only investing in your comfort but also making a sustainable and responsible choice.

SOFA

50 years of living

When choosing a new sofa, there are many things to consider. The best configuration for your living space. The material, colour and finishing touches to complement your interior. But great design is so much more than what meets the eye.

Underneath the surface of a Stressless® sofa is where the real magic happens. We focus just as much on the functionality and comfort. How the sofa responds and adjusts to your body. How it supports you in every position. We have spent years perfecting our designs to bring you a sofa that your room will love, and your body and mind will thank for years to come.

Take comfort to the next level

A sofa is many things. A place to read. A place to entertain family and friends. A place to close your eyes and enjoy a moment of calm. Our timeless designs suit all interior settings while clever built-in functionality offers unrivalled levels of comfort.

Stressless® BalanceAdapt™ system allows the sofa to respond to your natural movements, adjusting the seat as you move. Recline, lean forward, lie down or put your feet up and feel how the soft and generous seat adapts to your movements. When the occasion calls for just a regular sofa, simply lock the function to stop the seat from moving.

The ultimate Power sofa

Stressless® Emily has an adjustable headrest on all modules. You can lower it for a sleek low-back sofa with perfect back support for sitting – or adjust the angle and height of the headrest for extra support to your head and neck when you want complete relaxation. Put your feet up on the LongSeat module with adjustable headrest and leg support – or include the possibility to adjust leg and head support on one or more of the sofa seats.

Stressless® Emily offers a large choice of high-quality leather and fabrics, and the choice between three versions of the armrests: Emily Steel and Emily Wood have slim armrests with elegant details in steel or wood, while Emily Wide has distinct upholstered armrests with luxuriously large proportions.

Stressless® Emily is a modular sofa system. Seat modules, with or without Power, corner, two sizes of LongSeats, center modules or end modules can be combined to create the sofa of your dreams.

It's time to indulge

Stressless® Mary is a truly sumptuous sofa with gentle curves and a generous look that will never go out of style. Its cushioning is extra supple and soft for added indulgence, and individual seat modules can be fitted with motors for effortless adjusting of the back and leg support. The functions are operated from an integrated panel, discretely concealed on the right side of your seat.

Seat modules with or without Power can be combined, and you can also add the spacious corner module to your setup. Seat modules with Power have motorized adjustment of the footrest, backrest and headrest for individual comfort.

Choose between a classic upholstered armrest or an armrest with wooden details for an elegant touch. Stressless® Mary matches exquisitely with Stressless® Mayfair, one of our best-selling recliner models through the decades. With the same range of leathers, fabrics and colours available across our entire range of furniture, completing your look has never been easier.

Sharing the comfort

Stressless® Wave adjusts to your body as soon as you take a seat. Our built-in Plus™ and Glide™ systems support both head and lower back, whether you sit up or lie down. It's available in a three seat, two seat and one seat sofa, and can also be combined with the Medium Corner or Sector for Home Cinema setups. Stressless® Wave also comes with a choice of high or low back.

A timeless classic design

The most recent addition to our Stressless® Lounge category has a modern and light design with clean lines and an elegant silhouette. The curved lines enhance the visual comfort and softness of the back cushions, which are filled with a mixture of down and shredded foam. Construction, angles and cushioning are developed to offer exquisite comfort. ComfortZones™ in the sofa seat cushions enhance the softness and make the cushions adapt to your seating position.

Stressless® Copenhagen offers countless possibilities for personalising the look and shape of the sofa. It's available as 2.5 seat, 3 seat Duo, Corner and LongSeat. All seats can be combined to create the perfect modular sofa setup.

Armrest C1 has a soft curve against the seat, enhancing the round and feminine shapes of the sofa.

Armrest C2 is slim with square edges. This armrest helps highlight the airy and modern expression.

When you sit down in a sofa with **ComfortZones™** the back part of the cushion will give in more than the front part of the cushion. As a result of this, the seat cushion will angle slightly, giving you a comfortable position of your legs while seated.

Because we care

We care about the world around us. Our wooden offcuts are regenerated into heating our factory and any surplus heat is used for district heating for homes and the local outdoor pool. Even our simple efforts such as using recycled materials for packaging and using leftover foam for armrests and footrests are all contributing to making a difference. Our more complicated closed loop system allows us to clean the steel without releasing toxins and our use of water-based paints and lacquers have the same benefit. It doesn't save the world – but it makes a difference. For us and the generations to come.

DINING

50 years of passion

The dining area is the heart of the home. A place to enjoy the company of friends and family. A place to chat, share and celebrate...to remember old and to make new memories. Stressless® dining chairs are expertly designed to work with your body, not against it. The flexible seat and back follow and respond to the movements of your body in a unique way, offering a variety of positions for total comfort. With Stressless® dining chairs you can while away the hours in complete comfort.

Dining with a twist

One of the available legs for our Stressless® Dining chairs, called D150, has a clever rotating base. The swivel function makes it easier to get in and out of the chair, and reduces the need to pull the chair away from the table before sitting down or getting up. Simply turn the chair sideways for easy access. This feature also helps to keep the conversations around the table flowing, as you can turn the chair to face the person you are talking to. Innovative dining at its best!

360 swivel is standard on the D150 base, with autoreturn as an option.

DINE IN COMFORT. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximize your quality time with friends and family.

Building a home

Stressless® furniture are available in the same large selection of material and finishes. This means that you can combine different types of furniture and still create a uniform interior for your home. Choose recliners, sofas, dining chairs and home office chairs in the same covers – or create interesting contrasts with different textures in matching colours.

DINE IN COMFORT. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximize your quality time with friends and family.

50 years of...
Intelligent design

The Innovators of Comfort™

With the best quality materials, environmentally friendly processes and an uncompromising focus on comfort, our machines and people work together to create furniture that will live with you through a lifetime. When you sit down and appreciate how genuine Stressless® furniture feels, you will know.

Whether you sit up or lie down, the **Plus™ System** provides optimal comfort and support for your head and lumbar region. The sleep function is controlled with a simple hand movement to make your comfortable moments even better.

With a light pressure under the armrest, **Power™** adjusts both the footrest and the back angle. This combination provides superb support and comfort.

Optimal comfort is also about correct size. Most of our recliners therefore come in small, medium and large, for you to find your perfect fit.

With a light pressure on the right side of the seat cushion, **Power™** adjusts both the footrest and the back angle. This combination provides superb support and comfort.

When you sit down in a sofa with **ComfortZones™** the back part of the cushion will give in more than the front part of the cushion. As a result of this, the seat cushion will angle slightly, giving you a comfortable position of your legs while seated.

With **BalanceAdapt™**, subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

Power™ is easily operated by the remote control, the motorized functions offer truly outstanding comfort in all positions, small adjustments can make a big difference. Take comfort to the next level with optional extras including built-in heating and massage functions.

Optimal comfort is also about unique design options. Our Star and Original base models come in 3 different options, - Low, Adjustable and High back.

When sitting down, **ErgoAdapt™** provides a soft landing and total comfort with a seat that automatically adjusts to your position and smallest movements. When lying down, the sofa turns completely flat for best possible rest.

The unique **Stressless® Dining** chair responds to your body's movements and automatically adjusts the seat and back position, without levers or handles. This comfort enables you to maximize your quality time with friends and family. Enjoy!

It's time to create

Your perfect Stressless® home is only complete when you have added your personal taste and your individual needs. After all, it is your home.

That's why our dining chairs, home office chairs, sofas and recliners come in a large range of leather, fabrics – and choices of armrests and bases. Visit your local retailer or explore our endless opportunities at Stressless.com.

Create the recliner of your dreams

Never before have so many options been available to help you find the Stressless® recliner that's just right for you. We wanted to make sure that everyone could experience total relaxation, regardless of height or body shape. There are various bases, wood types and luxurious leather and fabric to choose from so that you can create the chair of your dreams.

Select design and size

Make your selection from our range of designs and sizes to find the perfect fit for you.

Select upholstery in leather or fabric

Stressless® furniture can be delivered in more than 140 different covers: Five leather qualities and 14 fabric qualities in more than 100 colors. See the whole range of leather and fabric at stressless.com

Select base in wood or metal

There are seven different bases to choose from, all with one thing in common; unique comfort.

Cross base with BalanceAdapt™

An elegant combination of wood and aluminum that offers a soft and comfortable rocking motion. Available in sizes S, M and L.

Signature base with BalanceAdapt™

An elegant combination of wood and aluminum that offers a soft and comfortable rocking motion. Available in sizes S, M and L.

Classic base

A timeless design in classic wood with unique stability. Available in sizes S, M and L.

Classic Power™ base

The elegant footrest is hidden beneath the seat. Available in sizes M and L.

Star base with BalanceAdapt™

A stylish metal base with a soft and comfortable rocking motion. Available in sizes M.

Original base with BalanceAdapt™

A soft and comfortable rocking motion based on an steel frame. Available in sizes M.

Home Office base

This castor base offers full freedom of movement and height adjustment for personal adaption of your seat height. Available in size M.

View with the Stressless @home App

You can also download our Stressless @home App, personalise your favorite piece of our furniture, and actually place it in the living room, kitchen or office at home with the help of your phone or tablet. The app provides you with pictures of all our chairs and sofas and lets you choose your preferred materials, colours and bases. It doesn't get easier:

- Download the application from Apple Store or Google Play
- The app will automatically download all available Stressless® products at startup
- Choose model and style it at your preference
- Choose "view at home", and see your Stressless® chair in your home through the camera.

Stressless® Home Cinema

You move more than 300 times during the length of a movie. This might sound exhausting, but don't despair – Stressless® seating is designed to adjust to your every movement. The spacious, soft seats of your Stressless® Home Cinema seating, combined with a Stressless® ottoman, ensure an optimal movie experience. Regardless of how much space you have available for your home cinema setup, our ingenious flexible modular designs ensure that there's always place for a Stressless® sofa.

Find out more about the many options available at stressless.com

Stressless® Arion A10 / Stressless® Arion A20

Stressless® Wave

The Stressless® Sector (SC) / Sector Arm (SCA) is upholstered in the same way as the sofa and conceals a storage space beneath the top. The Sector / Sector Arm also functions as an armrest, which is why setups with Sector/ Sector Arm tables should be treated as a single, fixed unit.

TABLES AND OTTOMANS

Stressless® Urban (L)

Stressless® Urban (S)

The stylish glass table is designed to match Star base models. Select from polished metal or matt black finishes.

Stressless® Enigma

A stylish glass table with base in polished metal.

Stressless® Corner table

This practical table is perfect for placing between a pair of Stressless® recliners. Also ideal for any corner setup or home cinema arrangement.

Stressless® Style tables

Stressless® Windsor table

Sofa table and side table, available in several colour combinations. The slight difference in height means that the tables can be easily combined in different ways, either standing apart or close together. The tabletop is made from MDF with a melamine surface and is available in White, Black and Cream. The wooden legs are available in Black, Whitewash and Brown.

Stressless® Windsor table

Stressless® Ellipse table

This flexible, easy-to-move table is ideal, since it keeps everything you need within easy reach while you are in your "comfort zone" (adjustable).

Stressless® USB table A

Stressless® USB table B

A versatile table with a USB port, this fits all Stressless® chairs perfectly. Available in various combinations of glass or wood, with a black or chrome stem (adjustable).

Stressless® Easy Armrest table

This smart table has been designed for the Stressless® Arion, Stressless® Wave and Stressless® Emma E200. Simply place the table on the armrest to provide a convenient extra surface.

Stressless® Computer table

This table provides a good working position and remains independent of your movements. Simply swing it to the side and fold it down when not in use. Can only be fitted to Classic/Classic Power base recliners.

Stressless® Swing table

This table remains independent of your movements and can be simply swung aside when not in use. Can only be fitted to Classic/Classic Power base recliners.

Stressless® Modern and Stressless® Soft ottoman

Our ottoman is ingenious in at least two ways. Firstly, it features a built-in tilt system, which ensures that the angle of the ottoman is adjusted to your sitting position. And secondly, it has room for all your extras under its removable top. Available in two sizes.

Stressless® Stella and Stressless® Ella ottomans

A sleek footstool perfectly designed to match our Stella and Ella sofa. Complement with an optional table. Available in 2 sizes.

Stressless® Double ottoman with ottoman table

This large ottoman offers ample space to put your feet up, while the storage space conceals a tabletop that can be placed on the ottoman when needed.

Stressless® base colours

Ekornes uses rotary cut beech veneer in all its moulded furniture components. Lightly steamed beech is used for solid wood components. The hardness of the wood makes beech furniture extremely durable, and the timber we use is a renewable resource. Beech is a natural material and variations in its pattern, colour and texture make each piece of furniture unique. Although beech is used for both solid and moulded components, structural differences may be visible.

Stressless® Leather and Fabric Care kits

Ekornes offers its own leather and fabric (including microfibre) care kits to match the high quality of our furniture.

The Stressless® Leather Care kit (medium/large) contains a leather cleaner and protection cream. Stressless® Leather Care Wipes are also available. For the leather quality Pioneer there are our own cleaning and care products: Stressless® Cleaning & Revitalizing Pioneer Leather Kit.

For maintenance, and to make the leather more resistant to stains, the protective cream should be applied to all your recliner’s leather surfaces when new. We recommend that you clean the leather with Stressless® leather cleaner at least once every six months to keep your leather looking its best, removing stains regularly and ensuring long leather life. Always apply the protective cream after cleaning.

The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and an Ox cleaner. This kit contains everything you need to clean your furniture in minutes without removing the fabric cover. For resistant stains, use the fabric cleaner together with the stain remover and Ox cleaner.

These are the only cleaning products recommended by Stressless®. Stressless® accepts no responsibility if cleaning products other than those recommended by Ekornes are used and cause damage to the leather.

All great choices, naturally

Being one of the world’s largest premium furniture manufacturers comes with responsibility. All our leather is manufactured in keeping with current laws and guidelines for animal welfare, health, safety and the environment. Here, we work alongside recognised international institutions to ensure that we are always up-to-date.

Our inspectors also take part in the leather selection process from our chosen tanneries. We maintain the highest of standards here, so that you always make a great choice – regardless of texture, softness, colour and how you want the leather to look and feel. Today and tomorrow. For this, we offer many types of leather – from the most exclusive and delicate to the more robust quality.

BATICK is a corrected, pigment improved and grain embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone colour effect to liven up the surface. Batick is resistant to fading, although changes in colour will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilisation properties and a favourable price make Batick a good choice.

CORI is a corrected, pigment improved and grain embossed upholstery leather. Cori has a substantial body and a distinct pebbled grain. Most of its natural marks are removed. Cori has a tip-shine which adds depth and character to the surface. Some colours have two-tone/ tone on tone-effect. A protective layer of lacquer simplifies cleaning. Cori is a wise choice if you want leather with excellent utilisation properties, a robust structure and an exclusive look.

PALOMA is a slightly corrected leather with a combination of dyes and pigments that smooths down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may however vary a little at some parts of the furniture and also minor colour nuances may appear in the leather. Natural marks, scars and insect bites are natural and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy duty quality and protection as Batick and Cori. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

NOBLESSE is the most exclusive leather quality offered by Ekornes. It is a full grain semi-aniline, which means that it is dyed all the way through and has only a thin protective topcoat. This allows the leather to keep the natural softness and lustre that characterises a first-class furniture leather. A natural material like Noblesse retains its original grain and structure. Minor colour nuances and skin blemishes may also occur. Such individual details could lead to slight variations in different parts of the furniture cover. Although the topcoat provides a measure of protection, Noblesse is the most delicate of the leather qualities that Ekornes uses. It absorbs moisture easily, and is more vulnerable to wear and tear, heat, sunlight, spills and perspiration. Regular maintenance is important to keep its attractive appearance.

PIONEER is a luxurious full grain aniline pull-up leather. This exclusive and delicate quality retains the full original grain of the leather, and is treated with oils, waxes and transparent dyes. This enhances the soft touch and natural appeal, offering deep, vibrant colours and a beautiful luster. The full-bodied leather sensation and natural transparent look will gain patina and become even more beautiful with age. On an exclusive leather like Pioneer you will find natural characteristics like colour nuances, difference in structure, marks and skin blemishes. The delicate finish gives an exceptional comfort and a striking look, but offers just a light protection. Pioneer absorbs moisture easily and is vulnerable to heat, sunlight, spills and perspiration. Regular care and precautions are important to keep the luxurious and elegant appearance.

Sustainable future fabrics

At Stressless® we are proud caretakers of the beautiful scenery that surrounds the factory in Norway. We wholeheartedly believe the best choice you can make is to furnish your home with high quality furniture that will last a lifetime. In addition to this, we are delighted to offer products that are made with extra focus on the environment and sustainability – both in our choice of materials and in our production.

The Stressless® fabric collection is inspired by nature – offering you the possibility of creating a calm breathing space in the comfort of your own home. We have a large selection of qualities and colours to choose from. The latest addition of fabric qualities, Daisy and Clover, are especially selected with sustainability in mind.

Our specially selected fabric collection meets the furniture industry’s strictest requirements. Stressless® fabrics are produced in accordance with strict environmental conditions and are treated for heavy-duty use, light tolerance and inflammability. Choose from our wide selection of colours to match your interior. Please note that colour changes will occur over time as a result of use and the effects of exposure to light. You should always protect your furniture from direct sunlight. To prolong the life and appearance of your recliner or sofa, the fabric upholstery should be regularly vacuumed, professionally dry-cleaned or cleaned with our approved Stressless® Fabric Care kit.

CALIDO is a wool felt fabric with an exclusive appearance, which feels comfortable and soft next-to-the skin. It is available in a varied and exclusive colour palette. 80% wool, 20% polyamide.

CLOVER is a classic wool fabric with a modern design and a beautiful calm colour palette. The smooth, soft surface is enhanced by the subdued colours with a melange effect, creating a fabric with distinct character. Clover is a fabric made of 70% wool with 30% viscose added for extra strength and softness. It is manufactured at a renowned Norwegian weaving mill with long traditions.

DAHLIA has a slight sheen to its surface, which gives the fabric an exclusive and elegant look. The fabric feels soft, cosy and inviting. The attractive colour palette emphasises the classic and timeless appeal of the fabric. 100% polyester

DAISY is an exceptionally soft and comfortable fabric made from recycled bottles. The silkysoft fiber is weaved with a light structure and a soft pile. The harmonious colour palette has a nice sheen and play created by a weave with different nuances and structure. Daisy is a good choice if you are looking for a sustainable and strong fabric with a soft touch and easy maintenance. 100% polyester

DINAMICA is a well-known microfibre-quality fabric with an appearance resembling chamois leather. This is soft and very comfortable, breathable and non-static. Easy to keep clean and highly wear resistant. 88% polyester, 12% polyurethane.

ERICA is a modern fabric with a rough and coarse texture, but soft and comfortable to the touch. Some of the colours have a two-tone effect, making them perfect for creating exciting combinations. 100% polyester.

FARON is a bouclé fabric. It has a rough, coarse structure but still feels soft and comfortable against the skin. The weave of this fabric makes it extremely strong and hardwearing, with good durability. The fabric has an even colour tone and is available in a broad range of colours. Pile: 100% polyester, Ground: 50% polyester, 50% polyacryl.

FREESIA has a strong structure. The weave includes threads in different shades and with various levels of shine, which provides attractive, subtle variations in the surface. 85% polyester, 15% cotton.

GRACE is a velour with a medium length pile. The soft, silky texture has a fine sheen and provides an attractive interplay of colours. Grace is hardwearing, comfortable to sit on and easy to keep clean. 92% polyester, 5% cotton, 3% latex.

JASMINE has a fine, softened structure which makes the surface appealing. We’ve selected a range of dusty, subdued colours that can easily be combined with colours from our leather collection. 90% polyester, 10% cotton.

LINA Thanks to its interwoven contrast colours, Lina has an exciting look & feel. The fabric feels soft, cosy and inviting. The elegant colour palette combines beautifully with the Stressless® leather colours. 54% polyester, 30% cotton, 16% viscose.

LINDEN has a strong structure. The weave includes threads in different shades and with various levels of shine, providing attractive, subtle variations in the surface. 53% polyolefinic, 26% acryl, 11% wool, 8% polyester, 2% polyamid.

ROSE is a velour with a medium length pile. The soft, silky texture provides a fine sheen and an attractive interplay of colours. Rose is hardwearing, comfortable to sit on and easy to keep clean. 100% polyester.

SILVA / SILVA MOON is a pure and timeless wool fabric that feels comfortable next-to-the skin. It is available in a muted and classic colour palette. Silva: 76% wool, 13% viscose, 6% polyamide, 5% linen. Silva Moon: 61% wool, 21% viscose, 9% polyamide, 9% linen.
